REGISTRATION No. 17287
PEST CONTROL PRODUCTS ACT

CAUTION POISON

DIRECTIONS FOR USE: This product can be used in dwellings, farm buildings, food service establishments, granary bins (empty), processing plants (feed, food, non-food) and storage areas.

BAIT PREPARATION: May be used wet or dry. To prepare liquid baits, dissolve contents in 1 litre of water. To prepare dry baits mix one part by weight of concentrate with 19 parts of a suitable substrate such as cornmeal, rolled oats, or dry dog food, to give a 0.005% bait. Place the bait in locations frequented by rodents, such as tunnels, feeding areas, and runways. Liquid baits should be exposed in glass water founts in protected stations. For RATS (*Rattus norvegicus*) use a minimum of 250 g of bait per station increasing the amount if heavy infestation exists. For MICE (*Mus musculus*), set out piles of 15-60 g at intervals of 2-3 m. Replace bait which becomes damp, moldy or sour. Maintain an uninterrupted supply until feeding ceases.

IMPORTANT:

1. Place baits in locations which are not accessible to children, pets and domestic animals, or place baits in tamperproof boxes.
2. In food processing plants and kitchens place baits in protected bait stations on the floor only; do not place in overhead locations. Wash thoroughly any tables, cutting blocks or equipment accidentally contaminated. Do not apply bait during production hours or near open foodstuffs.
3. Products for use in fish processing and packing plants are subject to the Fisheries Inspection Act.
4. Products for use in federally inspected meat packing are subject to the Meat Inspection Act.

WARNING: Keep bait away from human beings, domestic animals and pets. If swallowed by human beings, domestic animals and pets, this product reduce the clotting ability of the blood and cause bleeding.

IN ALL CASES OF HUMAN INGESTION IMMEDIATELY NOTIFY A PHYSICIAN.

TOXICOLOGICAL INFORMATION: In case of accidental swallowing the intravenous and oral administration of Vitamin K1 combined with blood transfusions are indicated, as in the case of haemorrhage caused by over-dose of bis-hydroxycoumarin.

CONTAINER DISPOSAL: Do not re-use empty container. Containers should be disposed of by punching holes in them and burying with wastes or by burning (keep out of smoke).

NOTICE TO USER: This control product is to be used only in accordance with directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

NOTICE TO BUYER: Seller's guarantee shall be limited to the terms set out on the label and subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.
