

Evaluation Report for Category B, Subcategory 1.1, 3.1, 3.4 Application

Application Number: 2014-1898
Application: Changes TGAI or ISP Prod Chemistry-New Source (site) same registrant
Changes to product labels – application rate increase or decrease and application method
Product: Bioprotec Lawn Herbicide Ready to Use
Registration Number: 30883
Active ingredients (a.i.): Citric Acid and Lactic Acid
PMRA Document Number : 2478456

Purpose of Application

The purpose of this application was to change the formulating site, to add a broadcast spray application method, revise the rates for spot treatment, as well as to reword the directions for use and other general label statements for Bioprotec Lawn Herbicide Ready to Use.

Product Characterization and Analysis

The change to the formulating site of Bioprotec Lawn Herbicide Ready to Use is acceptable. No further data are required.

Health Assessments

Toxicology and food residue assessments were not required with this application.

The changes to the Bioprotec Lawn Herbicide Ready to Use label do not pose additional hazards to the domestic user or bystanders. No further data or revised risk assessment are required. The label precautions adequately mitigate the risks from occupational and bystander exposure.

Environmental Assessment

The changes to the Bioprotec Lawn Herbicide Ready to Use label do not pose additional hazards to non-target organisms. No further data or revised risk assessment are required. The label precautions adequately mitigate the risks to non-target organisms.

Value Assessment

Given that all amendments to the Bioprotec Lawn Herbicide Ready to Use label are found on either Bioprotec Lawn Herbicide Concentrate label (Registration Number 30881) or Kona herbicide label (Registration Number 29603) and all three products were determined to be agronomically similar when applied at the same concentrations, the amendments to the Bioprotec Lawn Herbicide Ready to Use label are supported from a value standpoint.

Conclusion

The Pest Management Regulatory Agency has completed an assessment of the information provided and is able to support the change in formulating site, the addition of a broadcast spray application method, revisions to the rates for spot treatment, and revisions to the directions for use and other general label statements for Bioprotec Lawn Herbicide Ready to Use.
