

Evaluation Report for Category B, Subcategory 4.6 Application

Application Number: 2014-3670
Application: Conversion to fulfill requirements of registration on a product with full registration
Product: Bioprotec Fungicide Rosses Ready to Use
Registration Number: 30905
Active ingredients (a.i.): Citric Acid and Lactic Acid
PMRA Document Number : **2568902**

Purpose of Application

The purpose of this application was to fulfill the requirements of registration of the fully registered microbial end-use product, Bioprotec Fungicide Roses Ready to Use. In addition, the formulating site address was changed, but there was no change in manufacturing and formulating process.

Chemistry Assessment

Bioprotec Fungicide Roses Ready to Use contains the active ingredients lactic acid and citric acid (present as fermentation products of *Lactobacillus casei* strain LPT-111) at 2.56 and 1.29 g/L respectively. Data submitted indicated that the EP meets the specified limits for microbial contamination and support the stability of the active ingredients over a 1-year period. The product characterization and analysis database is complete.

Health, Environmental and Value Assessments

Health, environmental and value assessments were not required for this application.

Conclusion

The Pest Management Regulatory Agency has completed an assessment of the information provided and the requirements of full registration for Bioprotec Fungicide Roses Ready to Use have been fulfilled and the change in formulating site was approved.
