

Evaluation Report for Category B, Subcategory 4.6 Application

Application Number: 2014-3562

Application: Submission to fulfill conditions of registration on a product with full registration

Product: Lacto-San

Registration Number: 30110

Active ingredients (a.i.): Citric Acid, Lactic Acid

PMRA Document Number : 2790641

Purpose of Application

The purpose of this submission was to fulfill the conditions of full registration. Additional value information was required following the initial registration to support two claims: suppression of angular leaf spot in strawberries and suppression of downy mildew on grapes for Lacto-San.

Chemistry, Health, and Environmental Assessment

Chemistry, health, and environmental assessments were not required for this application.

Value Assessment

Based on new efficacy data provided from a total of five efficacy trials, the claims of suppression angular leaf spot on strawberries and partial suppression of downy mildew on grapes are fully supported.

Conclusion

The PMRA has conducted a review of the information provided in support of this application and has determined that the conditions of full registration for Lacto-San have been fulfilled.
