

## Evaluation Report for Category B, Subcategory 3.13 Application

**Application Number:** 2016-1009  
**Application:** Changes to Product Labels – Precautions  
**Product:** PPG ABC 3 Antifouling Paint  
**Registration Number:** 26991  
**Active ingredients (a.i.):** Copper (present as cuprous oxide)  
**PMRA Document Number:** 2730119

### Purpose of Application

The purpose of this application was to amend the precautionary statements on the PPG ABC 3 Antifouling Paint product label.

### Chemistry, Environmental and Value Assessments

Chemistry, environmental and value assessments were not required for this application.

### Health Assessments

A dietary exposure assessment was not required for this application.

Study results indicate that PPG ABC 3 Antifouling Paint should be considered corrosive to the skin.

The use of PPG ABC 3 Antifouling Paint is within the currently registered use patterns for cuprous oxide active ingredient. Therefore, exposure to PPG ABC 3 Antifouling Paint is not expected to increase over the exposure from the currently registered products.

### Conclusion

The Pest Management Regulatory Agency has completed an assessment of the available information and is able to support the amendments to the PPG ABC 3 Antifouling Paint product label.
