

## Evaluation Report for Category B, Subcategory 3.4 Application

**Application Number:** 2012-1618  
**Application:** B.3.4 – Changes to Product Label – Application Method  
**Product:** Ace Salt Water Sanitizing System  
**Registration Number:** 30251  
**Active ingredients (a.i.):** Device  
**PMRA Document Number:** 2318964

### Purpose of Application

The purpose of this application was to add a second system spa interface to operate with the Ace Salt Water Sanitizing System, to change one part of the device (control box), and to update the owner's manual of Ace Salt Water Sanitizing System.

### Value Assessment

Efficacy data was not required for this submission since no chlorine output modification was proposed. A new certificate of electrical safety was provided to confirm that the new controller box was certified.

### Chemistry, Environmental and Health Assessments

Chemistry, environmental and health assessments were not required for this application

### Conclusion

The PMRA has reviewed the information provided and has determined that the addition of a second system spa interface to operate with the Ace Salt Water Sanitizing System, the change of one part of the device (control box), and the updated owner's manual of Ace Salt water sanitizing system are acceptable.
