

## Evaluation Report for Category B, Subcategory 2.1 Application

**Application Number:** 2014-3223  
**Application:** B.2.1 – New Product  
**Product:** Saltron Retro  
**Registration Number:** 31672  
**Active ingredients (a.i.):** Device  
**PMRA Document Number :** 2485184

### Purpose of Application

The purpose of this application was to register Saltron Retro, a portable salt water chlorine generator to be used in domestic swimming pools

### Chemistry, Health and Environment Assessments

Chemistry, health and environment assessments were not required.

### Value Assessment

Efficacy data from a laboratory trial was submitted to confirm the daily free available chlorine (FAC) output of Saltron Retro. The device can generate a maximum output of hypochlorous acid equivalent to 0.192 kg of FAC per day which is sufficient to generate 1-3 ppm of FAC in pools with a maximum volume of 75 708 L. Therefore, the use of the Saltron Retro Portable Chlorine Generator for use in domestic swimming pools is acceptable.

### Conclusion

PMRA has reviewed the information provided in support of the registration of Saltron Retro. Based on this review, Saltron Retro is acceptable for full registration.
