

Evaluation Report for Category B, Subcategory 2.1 Application

Application Number: 2019-1422
Application: New EP Product
Product: Freshwater Salt System
Registration Number: 33577
Active ingredients (a.i.): Device
PMRA Document Number: 3032236

Purpose of Application

The purpose of this application was to register Freshwater Salt System, a salt water chlorine generator to be used with spas.

Value Assessment

Value information was submitted to confirm the daily free available chlorine output of the device. The device can generate a maximum of 0.0174 kg of free available chlorine per day, which is sufficient to generate 3-5ppm in a spa in a maximum water volume of 2000 L. Therefore, Freshwater Salt System was found to have acceptable value.

Chemistry, Health and Environmental Assessments

Chemistry, health and environmental assessments were not required for this application.

Conclusion

The Pest Management Regulatory Agency has completed an assessment of the information provided, and has found it sufficient to support the registration of Freshwater Salt System.
