

Evaluation Report for Category B, Subcategory 2.1 Application

Application Number: 2015-4342
Application: Changes EP or MA Product Chemistry-Guarantee
Product: Saniclear20
Registration Number: 30942
Active ingredients (a.i.): Device
PMRA Document Number : 2599139

Purpose of Application

The purpose of this application was to amend the product label for Saniclear20, Reg. No. 30942, as the chlorine output has increased due to a change in the electronic mother board of the generator.

Chemistry, Health, and Environmental Assessments

Chemistry, health, and environmental assessments were not required for this application.

Value Assessment

Value information from a laboratory trial was submitted to confirm the daily free available chlorine (FAC) output of Saniclear 20. The device can generate a maximum output of hypochlorous acid equivalent to 0.33 kg of FAC per day which is sufficient to generate 1-3 ppm of FAC in pools and 3-5 ppm of FAC in spas with a maximum volume of 108 000 L. Therefore, the use of the Saniclear 20 for use in domestic swimming pool and spas is acceptable.

Conclusion

The Pest Management Regulatory Agency has completed an assessment of the information provided in support of the product, Saniclear 20, and has found the information sufficient to modify the chlorine output of the device.
