

## Evaluation Report for Category B, Subcategory 2.1 Application

**Application Number:** 2019-1719  
**Application:** Application to register a new device  
**Product:** iChlor 15  
**Registration Number:** 33742  
**Active ingredient (a.i.):** Device  
**PMRA Document Number :** 3036731

### Purpose of Application

The purpose of this application was to register iChlor 15, a saltwater chlorine generator to be used in swimming pools and spas.

### Chemistry, Health, and Environmental assessments

Chemistry, health, and environmental assessments were not required for this application.

### Value Assessment

Value information was submitted to confirm the daily free available chlorine (FAC) output of the device. The device can generate a maximum of 0.27 kg of FAC per day, which is sufficient to generate 1-3 ppm in a pool and 3-5 ppm in a spa to the maximum sizes of each, described in the label. Therefore, iChlor 15 saltwater chlorine generator has been found to have acceptable value.

### Conclusion

The Pest Management Regulatory Agency has completed an assessment of the information provided, and has found the information sufficient to register iChlor 15.
