

Evaluation Report for Category B, Subcategory 7.0 Application

Application Number: 2012-0744
Application: Reinstatement of Registered Product
Product: Chromic Acid (Chromium Trioxide)
Registration Number: 24106
Active ingredients (a.i.): Chromium (present as chromium trioxide)
PMRA Document Number : **2215199**

Purpose of Application

The purpose of this application was to reinstate the registration for the technical active Chromic Acid (Chromium Trioxide). The product was discontinued in 2006. This application was reviewed concurrently with an application to request use of this source of chromic acid in the formulation of the end-use product Wolmanac 60% Industrial Concentrate, Registration Number 21226 (submission number 2012-0811).

Chemistry Assessment

The chemistry requirements for the reinstatement of this product registration have been fulfilled.

Health Assessments

This application request has no impact on the toxicity profile of the product.

Occupational and food residue assessments were not required with this application.

Environmental Assessment

The PMRA has determined that the reinstatement of the technical grade active ingredient Chromic Acid (Chromium Trioxide) does not pose an unacceptable risk to non-target organisms provided that the required risk mitigation statements are included on the product label.

Value Assessment

A value assessment was not required with this application.

Conclusion

The Pest Management Regulator Agency has completed an assessment of the available information and is able to support the reinstatement of the product registration for Chromic Acid (Chromium Trioxide).
