

Evaluation Report for Category B, Subcategory 4.6 Application

Application Number: 2013-4608
Application: Submission to fulfill conditions of registration on a product with full registration
Product: Twinline Fungicide
Registration Number: 30337
Active ingredients (a.i.): Metconazole and Pyraclostrobin
PMRA Document Number: 2366595

Purpose of Application

The purpose of this application was to provide data to fulfill conditions of full registration for Twinline Fungicide for the claim of control of spot blotch (*Cochliobolus sativus*) on wheat and barley.

Chemistry, Health and Environmental Assessments

Chemistry, health and environmental assessments were not required for this application.

Value Assessment

Efficacy data from three trials were submitted in support of the claim of control of spot blotch on barley. Based on the comparability in the performance of Twinline Fungicide to a registered product and based on the yield results, the claim of control of spot blotch on barley was supported. A scientific rationale was provided in support of the claim of control of spot blotch on wheat. The scientific rationale was determined to be acceptable.

Conclusion

The PMRA has completed an assessment of the information provided in support of the product Twinline Fungicide and has found the information sufficient to fulfill the conditions of full registration.
