

Evaluation Report for Category B, Subcategory B.3.11 Application

Application Number: 2016-6782
Application: Category B, Subcategory B.3.11 (new pests)
Product: K9 Advantix[®] II Extra Large Dog
Registration Number: 29779
Active ingredients (a.i.): imidacloprid (IMI); permethrin (PFL), pyriproxyfen (PRX)
PMRA Document Number: 2700403

Background

K9 Advantix[®] II Extra Large Dog (Reg. No. 29779, 8.8% imidacloprid; 44% permethrin; 0.44% pyriproxyfen) has been registered since June 2011. It is registered as a spot-on application for use on dogs weighing 25 kg or more to control fleas, ticks and lice and to kill mosquitoes.

Purpose of Application

The purpose of this application is to add claims to reduce biting by mosquitoes and stable flies to the product label.

Chemistry, Health and Environmental Assessments

Chemistry, environmental and health assessments were not required.

Value Assessment

Six laboratory trials supported claims of reduces biting by mosquitoes and stable flies. These are nuisance pests of dogs.

Conclusion

The PMRA has completed an evaluation of the subject application and has found the information sufficient to amend the registration of K9 Advantix[®] II Extra Large Dog to include claims that the product reduces biting by mosquitoes and stable flies on dogs.
