

Evaluation Report for Category B, Subcategory 1.1 Application

Application Number: 2020-0165
Application: Changes to Product Chemistry-New Formulating Site
Product: Votivo 240 FS Nematicide
Registration Number: 31996
Active ingredients (a.i.): *Bacillus firmus* strain I-1582
PMRA Document Number : 3120744

Purpose of Application

The purpose of this application was to register a new formulating site for the end-use product Votivo 240 FS Nematicide, a commercial seed treatment for use on corn and soybean.

Product Characterization and Analysis

The information and data provided in support of an alternate formulating site for Votivo 240 FS Nematicide were reviewed and found to be acceptable. No further information is required to support the new formulating site.

Data were provided from an acceptable number of batches to support the product specifications of Votivo 240 FS Nematicide.

Health, Environmental and Value Assessments

Health, environmental and value assessments were not required for this application.

Conclusion

The Pest Management Regulatory Agency has completed an assessment of the information provided, and has found the information sufficient to approve an alternate formulating site for Votivo 240 FS Nematicide.
