

Evaluation Report for Category B, Subcategory B.3.12 Application

Application Number: 2012-1090
Application: Use Expansion: New Site or Host
Product: Liberty 200 SN Herbicide
Registration Number: 25337
Active ingredients (a.i.): Glufosinate ammonium
PMRA Document Number : 2200255

Background

Liberty 200 SN Herbicide is registered for use across Canada on glufosinate-ammonium tolerant corn, and for use on glufosinate-ammonium tolerant canola and soybeans grown in eastern Canada and British Columbia.

The purpose of this application was to amend the label of Liberty 200 SN (Registration number 25337), to include the use on glufosinate ammonium tolerant soybeans grown in the Prairie Provinces (Manitoba, Saskatchewan and Alberta).

Chemistry and Environmental Assessments

Chemistry and environmental assessments were not required for this application.

Health Assessments

No new residue data were required for the purpose of amending the label for Liberty 200 SN Herbicide to include the use on glufosinate ammonium tolerant soybeans grown in the Prairie Provinces since the crop field trial data on file support the use in Canada. Therefore, the use of Liberty 200 SN Herbicide on glufosinate ammonium tolerant soybeans grown in Canada will not increase the dietary exposure and will not pose an unacceptable risk to any segment of the population, including infants, children, adults and seniors.

Value Assessment

The value information submitted for consideration, including a scientific rationale, support the expansion of Liberty 200 SN Herbicide to glufosinate-ammonium tolerant soybeans grown in the Prairie Provinces.

Conclusion

Following the review of available data, the label expansion of Liberty 200 SN Herbicide for use on glufosinate ammonium tolerant soybeans in the Prairie Provinces has been approved.
