

Evaluation Report for Category B, Subcategory 2.1, 7.0 Application

Application Number: 2011-1470
Application: B.2.1 (Product Chemistry – guarantee)
Product: RodentBloc
Registration Number: 30633
Active ingredients (a.i.): Device
PMRA Document Number: 2207345

Purpose of Application

The purpose of this application was to register RodentBloc, a commercial ultrasound device to repel rodents inside and around the outer perimeter of buildings.

Chemistry, Health and Environment Assessments

Chemistry, health and environmental assessments were not required for this application.

Value Assessment

The submitted use history for RodentBloc and its similarity to registered ultrasonic devices for repelling mice and rats supported the use of RodentBloc to repel mice and rats from areas up to 30 m² per unit, in and around commercial, industrial and domestic buildings.

Conclusion

The PMRA has completed an assessment of the available information and is able to support the registration of RodentBloc.
