

Evaluation Report for Category B, Subcategory 3.14 Application

Application Number: 2011-2380
Application: Product labels - classifications
Product: Liqua-Tox II FC Rodenticide
Registration Number: 31122
Active ingredients (a.i.): Diphacinone (DPC)
PMRA Document Number: 2335131

Purpose of Application

The purpose of this application was to register a new commercial end-use product based on precedent, Liqua-Tox II Rodenticide (Domestic, Reg. No. 23720), which represent a change in classification.

Chemistry, Environmental and Value Assessments

Chemistry, environmental and value assessments were not required for this application.

Health Assessments

The proposed application request has no impact on the acute toxicity profile of the product.

No quantitative risk assessments can be conducted due to the absence of toxicological endpoints. Exposures to diphacinone are adequately addressed through qualitative assessments for applicators and potential post-application contact with Liqua-Tox II FC Rodenticide, dispensers, bait stations, and dead rodents. Workers are considered to be adequately protected when considering the product formulation, and when following label use precautions and instructions. In addition, label statements are included which restrict to treating areas that are inaccessible to children, pets, or non-target animals, and to use protective bait stations.

Conclusion

The PMRA has completed an assessment of the available information and is able to support the registration of Liqua-Tox II FC Rodenticide as a Commercial class product.
