

Evaluation Report for Category B, Subcategory 3.4 Application

Application Number: 2013-6740
Application: New Application method
Product: Roundup Ready-to-Use Refill
Registration Number: 31514
Active ingredients (a.i.): Glyphosate (present as isopropylamine salt or ethanolamine salt)
PMRA Document Number : 2441718

Purpose of Application

The purpose of this application was to register a new domestic class ‘refill’ product, Roundup Ready-to-Use Refill containing the active ingredient, glyphosate, to be used to refill currently registered End Use Product’s with the exact same formulation.

Health Assessments

The use of Roundup Ready-To-Use Refill is not expected to result in increased exposure over the registered use of glyphosate. No risks of concern are expected when homeowners follow label directions and wear personal protective equipment as stated on the label.

Roundup Ready-to-Use Refill is currently registered. Subsequently, no new toxicological data were submitted.

Chemistry Assessment, Environmental Assessment, and Value Assessment

These assessments were not required for this application.

Conclusion

PMRA has reviewed the information provided by the applicant for the registration of the ‘refill’ product. It has been determined, based on this review, that this ‘refill’ product is acceptable for registration.
