

Evaluation Report for Category L, Subcategory 1.1 Application

Application Number: 2017-3882
Application: Submission subject to PPIP policy – No data
Product: Limit 240 Forestry Insecticide
Registration Number: 32535
Active ingredients (a.i.): Tebufenozide
PMRA Document Number : 2824232

Purpose of Application

The purpose of this application was to amend the product label by adding additional pests; jack pine budworm, hemlock looper, and the white marked tussock moth.

Chemistry Health and Environmental Assessments

Chemistry, health, and environmental assessments were not required for this application.

Value Assessment

The addition of a claim to control jack pine budworm, hemlock looper, and the white marked tussock moth to the label of Limit 240 Forestry Insecticide at an application rate of 290 mL product per ha, applied by ground or air, in conifer forests and woodlots was supported based a rationale submitted by the applicant that these claims were present on the label of an equivalent precedent product.

Conclusion

The Pest Management Regulatory Agency has completed an assessment of the information provided, and has found the information sufficient to support the additional pests on the label of Limit 240 Forestry Insecticide.
