

Evaluation Report for Category B, Subcategory 3.2, 3.3 Application

Application Number: 2017-1518
Application: B.3.2: Change application timing
B.3.3: Change application number and frequency
Product: Voliam Xpress Insecticide
Registration Number: 30325
Active ingredients (a.i.): Lambda-cyhalothrin and Chlorantraniliprole
PMRA Document Number: 2876872

Purpose of Application

The purpose of this application was to amend the label of Voliam Xpress Insecticide to remove the statement prohibiting application of the product following a seed piece, in-furrow, or soil application of any Group 28 insecticide, to add statements prohibiting such application for a minimum of 60 days on each crop or crop group except Crop Group 1C (Tuberous and Corm Vegetables) for which the original statement would apply, and to add a statement to the resistance-management recommendations to make no more than 2 successive applications per generation to the same insect species.

Chemistry, Health and Environmental Assessments

Chemistry, health and environmental assessments were not required for this application.

Value Assessment

The label amendments regarding the timing of application of Voliam Xpress Insecticide following application of other Group 28 insecticides were supported based on value information supporting equivalent label statements for other Group 28 insecticide products.

Conclusion

The PMRA has reviewed the information provided to support the 3 label amendments. Based on the results of this review, the label amendments are acceptable.
