

Evaluation Report for Category B, Subcategory 4.6 Application

Application Number: 2017-3324
Application: Conversion to fulfill conditions of registration on a product with full registration
Product: Cyazofamid 400SC Fungicide
Registration Number: 27984
Active ingredient (a.i.): Cyazofamid
PMRA Document Number : 2891290

Purpose of Application

The purpose of this application was to fulfill requirements of registration for Cyazofamid 400SC Fungicide, in/on grapes and Amur River grapes.

Chemistry, Environmental and Value Assessments

Chemistry, environmental and value assessments were not required for this application.

Health Assessments

Residue data from field trials conducted in Canada were submitted to fulfill requirements for the use of Cyazofamid 400SC Fungicide on grapes and Amur River grapes. Cyazofamid was applied to grapes at the registered rate, and harvested at shorter PHIs. Based on the residues observed in grapes treated according to the current label directions, it was determined that residues of cyazofamid in grapes and Amur River grapes would be covered under the MRL of 1.2 ppm currently established for these commodities. Residues of cyazofamid in grapes and Amur River grapes at the established MRLs will not pose an unacceptable risk to any segment of the population, including infants, children, adults and seniors.

Toxicology and occupational exposure assessments were not required for this application.

Conclusion

The Pest Management Regulatory Agency has completed an assessment of the information provided, and has found the information sufficient to fulfill requirements of registration for Cyazofamid 400SC Fungicide.
