

Evaluation Report for Category B, Subcategory 1.1 Application

Application Number: 2020-0827
Application: B.1.1: New Source
Product: Actinovate SP
Registration Number: 28672
Active ingredients (a.i.): *Streptomyces lydicus* strain WYEC 108
PMRA Document Number : 3139716

Purpose of Application

The purpose of this application is to add a new formulating site for Actinovate SP.

Chemistry Assessment

Sufficient batch analysis data for microbial contamination and potency estimation were submitted to support the registration of the new formulating site of Actinovate SP. No additional information is required.

Health, Environmental and Value Assessment

Health, environmental and value assessments were not required for this application.

Conclusion

The PMRA has reviewed the information provided in support of the new formulating site. Based on the results of this review, the new formulating site is acceptable for registration.
