

Evaluation Report for Category B, Subcategory 2.1, 2.4 Application

Application Number: 2020-4042
Application: Changes to EP Product Chemistry-Guarantee; Proportion of Formulants
Product: Apivar (TM) Strips
Registration Number: 29092
Active ingredient (a.i.): Amitraz
PMRA Document Number: 3272938

Purpose of Application

The purpose of this application was to update the chemistry information associated with the registered end-use product Apivar (TM) Strips, as well as to add claims statements to the product label.

Chemistry Assessment

Apivar (TM) Strips is formulated as a solid containing amitraz at a concentration of 3.3%. This end-use product has a density of 0.88 g/mL, and pH cannot be determined since the product is not soluble in water. The required chemistry data for Apivar (TM) Strips have been provided, reviewed and found to be acceptable.

Health Assessments

Occupational and dietary exposures are not expected to be a concern because of the updated chemistry information and revised product claims statements.

A toxicology assessment was not required for this application.

Value Assessment

No change to the value of Apivar (TM) Strips is expected from the updated chemistry information and revised product claims statements.

Environmental Assessment

An environmental assessment was not required for this application.

Conclusion

The Pest Management Regulatory Agency has completed an assessment of the information provided, and has found it sufficient to amend the registration of Apivar (TM) Strips with updated chemistry information and to add claims statements to the product label.
