

Evaluation Report for Category L, Subcategory 1.1 Application

Application Number: 2021-3249
Application: Application subject to the Protection of Proprietary Interests in Pesticide Data Policy
Product: Advantage Trifluralin 10% Herbicide
Registration Number: 34572
Active ingredient (a.i.): Trifluralin
PMRA Document Number: 3348951

Purpose of Application

The purpose of this application was to register a new herbicide based on a precedent product. Advantage Trifluralin 10% Herbicide is for preplant soil incorporated weed control in field crops.

Chemistry Assessment

Advantage Trifluralin 10% Herbicide is formulated as granules containing trifluralin at a concentration of 10%. This end-use product has a density of 0.57-0.66 g/cm³ and pH of 6.75-6.90. The chemistry requirements for this product have been fulfilled.

Health, Environmental and Value Assessments

Health, environmental and value assessments were not required for this application.

Conclusion

The Pest Management Regulatory Agency has completed an assessment of the information provided, and has found the information sufficient to register Advantage Trifluralin 10% Herbicide
