

Evaluation Report for Category B, Subcategory 3.7 Application

Application Number: 2021-6317
Application: Changes to Product Labels-Pre-Grazing Interval
Product: Habitat Aqua
Registration Number: 32374
Active ingredient (a.i.): Imazapyr, present as the isopropylamine salt
PMRA Document Number : 3471568

Purpose of Application

The purpose of this application was to amend the grazing and haying restrictions appearing on the label of the registered end-use product Habitat Aqua, containing imazapyr. Habitat Aqua is registered for control of listed invasive plants growing within non-cropland areas, including areas in or around specified aquatic sites.

Health Assessments

The use of Habitat Aqua is not expected to result in potential occupational or bystander exposure over the registered use of imazapyr. No risks of concern are expected when workers follow label directions and wear personal protective equipment as stated on the label.

No new residue data for imazapyr were submitted to support the grazing on or haying of terrestrial non-cropland areas on the label of Habitat Aqua. Previously reviewed residue data, including livestock feeding trials, were reassessed in the framework of this application. The grazing on or haying of terrestrial non-cropland areas treated with Habitat Aqua do not constitute a health risk of concern to any segment of the population, including infants, children, adults, and seniors.

A toxicology assessment was not required for this application.

Chemistry, Environmental and Value Assessments

Chemistry, environmental and value assessments were not required for this application.

Conclusion

The Pest Management Regulatory Agency has completed an assessment of the information provided, and has found the information acceptable to amend the grazing and haying restrictions on the label of Habitat Aqua.
