

Evaluation Report for Category B, Subcategory 4.1 Application

Application Number: 2007-8670
Application: B.4.1 : Conversion to Full Registration Without Consultation
Product: Glyphosate-Trimesium 480 Herbicide Liquid
Registration Number: 25273
Active ingredients (a.i.): Glyphosate present as trimethylsulfonium salt
PMRA Document Number: 1752778

Purpose of Application

The purpose of this submission is to convert the aerial application on the Glyphosate Trimesium 480 Herbicide (Reg. No. 25273) label from conditional to full registration.

Health Assessments

No new residue data were submitted to support the conversion of the aerial use of Glyphosate-Trimesium 480 Herbicide Liquid from conditional to full registration. Glyphosate-Trimesium 480 Herbicide Liquid is fully registered for the same uses by ground application. No impact on the magnitude of residue is expected from the proposed aerial application. Therefore, no increase in dietary exposure is anticipated.

No additional occupational exposure data was required for the conversion to full registration.

Environmental Assessment

A sub-lethal terrestrial plant study on the green ash, *Fraxinus subintegerrima*, was required to convert the aerial application of Glyphosate Trimesium 480 Herbicide Liquid from conditional to full registration. The submitted study satisfies the data requirements. No additional environmental data are required for the registration of aerial application of Glyphosate Trimesium 480 Herbicide Liquid for forestry, industrial and agricultural uses.

Value Assessment

No additional value data was required for the conversion to full registration.

Conclusion

The conversion of aerial application on the Glyphosate Trimesium 480 Herbicide (Reg. No. 25273) label from conditional to full registration is acceptable.
