

Evaluation Report for Category B, Subcategory 4.1 Application

Application Number: 2010-4862
Application: Conversion to full registration without consultation
Product: Imidan 70-WP Instapak
Registration Number: 29064
Active ingredients (a.i.): Phosmet
PMRA Document Number English PDF: 2035514

Background

Imidan 70-WP Instapak, a product used on terrestrial food crops and ornamental outdoors, was first granted conditional registration on November 19, 2008. The product was granted conditional registration with the requirements of providing the Agency with a new storage stability study.

Purpose of Application

The purpose of this application was to convert the registration of Imidan 70-WP Instapak, Registration Number 29064, from a conditional to a full registration by addressing the outstanding chemistry requirements.

Chemistry Assessment

Imidan 70-WP Instapak is formulated as a wettable powder containing phosmet at a nominal concentration of 70% (w/w). This end-use product has a density of 0.318 g/mL and pH of 6.63. The chemistry requirements for Imidan 70-WP Instapak are complete.

Health, Environmental and Value Assessments

Health, environmental and value assessments were not required for this application.

Conclusion

The PMRA has completed an evaluation of the subject application and has found the information sufficient to support the conversion of the conditional registration of Imidan 70-WP Instapak to full registration status.
