

Evaluation Report for Category B, Subcategory 3.9 Application

Application Number: 2013-3927
Application: New or changes to product labels – level of control
Product: Tomcat Mouse Killer
Registration Number: 30757
Active ingredients (a.i.): bromethalin
PMRA Document Number : 2375910

Background

Tomcat Mouse Killer was first registered in November 2012. It is a pre-filled bait station containing bromethalin that is used to kill mice indoors.

Purpose of Application

The purpose of this application is to add optional statements to the label regarding the number of mice that can be killed with one bait station.

Chemistry Assessment

No review was required.

Health Assessments

No review was required.

Environmental Assessment

No review was required.

Value Assessment

One trial demonstrated that one 0.01% bromethalin block will kill 100% of caged mice (12 per cage) presented with a no choice situation. This was sufficient information to support the addition of optional statements to the Tomcat Mouse Killer label.

Conclusion

The PMRA has completed a review of the available information and reached a conclusion regarding the acceptability of the claim. Additional label statements may be added to the Tomcat Mouse Killer label.
