

Evaluation Report for Category B, Subcategory 4.6 Application

Application Number: 2015-2824
Application: To Fulfill Requirements on a Product with Full Registration
Product Name: Loopex
Registration Number: 31791
Active ingredients (a.i.): *Autographa californica* nucleopolyhedrovirus FV11
PMRA Document Number : 2574583

Background

Loopex, containing the active ingredient *Autographa californica* nucleopolyhedrovirus FV11, is registered for control of cabbage looper larvae (*Trichoplusia ni*) on commercial greenhouse-grown cucumbers, peppers and tomatoes.

Purpose of Application

The purpose of this application was to address the requirement of full registration for storage stability data on Loopex.

Chemistry Assessment

The applicant has submitted data demonstrating acceptable storage stability of Loopex for a period of up to 6 months at temperatures of up to 5°C. The submitted data also demonstrate that microbial contaminants remain at acceptable levels and the physical composition of the product remains stable under these storage conditions.

Conclusion

The applicant has adequately addressed the requirements of registration and no further information/data are required.
