

Evaluation Report for Category B, Subcategory 3.1, 3.11 Application

Application Number: 2016-0854
Application: Changes to Product labels – application rate increase or decrease;
new pests
Product: Voliam Xpress Insecticide
Registration Number: 30325
Active ingredients (a.i.): lambda-cyhalothrin, chlorantraniliprole
PMRA Document Number : 2640745

Purpose of Application

The purpose of this application is to add grasshoppers, Lygus bugs, pea leaf weevil, and potato leafhopper to crop group 6: legumes and to change the registered rates for selected pests currently registered on crop group 6: legumes.

Chemistry, Health, and Environment Assessments

Chemistry, health, and environment assessments were not required for this application.

Value Assessment

The rate of Voliam Xpress Insecticide for control of grasshoppers, Lygus bugs, pea leaf weevil and potato leafhopper is similar to the registered rates of the stand-alone products. As well, the addition of a rate range for control of soybean aphid, pea aphid, bean aphid, and bean leaf beetle is within the range registered on the stand-alone products. The addition of pests to the Voliam Xpress Insecticide label increases the pest spectrum and provides a single control option to farmers provided they have at least one pest controlled by each active ingredient present at the same time.

Conclusion

The Pest Management Regulatory Agency has completed an assessment of the information provided, and has found the information sufficient to support the amendment of Voliam Xpress Insecticide.
