

Evaluation Report for Category B, Subcategory 4.6 Application

Application Number: 2016-5095
Application: To fulfil the requirements of a product with full registration
Product: Benevia Insecticide
Registration Number: 30893
Active ingredient (a.i.): Cyantraniliprole
PMRA Document Number: 2785003

Purpose of Application

The purpose of this application was to provide value and efficacy data for certain uses of Benevia Insecticide on potatoes and oilseeds, in order to fulfil the requirements of full registration for this product.

Value Assessment

Rationales and three field trials (two on cabbage seedpod weevil and one on redbacked cutworm) supported full registration of the following uses of Benevia Insecticide: suppression of cabbage seedpod weevil and early season control of cutworms on oilseeds, and control of variegated cutworm on potatoes.

Chemistry, Health, Environmental and Value Assessments

Chemistry, health, environmental and value assessments were not required for this application.

Conclusion

The Pest Management Regulatory Agency has completed an assessment of the information provided, and has found the information sufficient to support the specific uses of Benevia Insecticide on potatoes and oilseeds, and to consider the requirements of registration for this product fulfilled.
