

Evaluation Report for Category B, Subcategories 1.3, 3.4 Application

Application Number: 2018-6581
Application: Changes TGAI or ISP Prod Chemistry-Specifications
Changes to Product Labels-Application Method
Product: Bioceres G WP
Registration Number: 31231
Active ingredient (a.i.): *Beauveria bassiana* strain ANT 03
PMRA Document Number : 2980735

Purpose of Application

The purpose of this submission was to increase the storage period from 12 to 18 months, and to include directions for premixing for BioCeres G WP.

Chemistry Assessment

Storage stability data were provided for five batches of BioCeres WP that were stored at 4°C for up to 18 months. At this temperature, the viability remained within the required limits.

The storage period can, therefore, be extended to 18 months at a temperature of up to 4°C.

Health Assessments

The change to the directions for use to include premixing instructions is consistent with the registered uses and does not result in increased exposure to workers and bystanders. No additional data were required or reviewed to support these amendments.

Toxicology and dietary risk assessments were not required for this application.

Environmental Assessment

An environmental risk assessment was not required for this application.

Value Assessment

The amendments to the storage period and use directions were supported from a value perspective. No data were required or reviewed to support these amendments.

Conclusion

The Pest Management Regulatory Agency has completed an assessment of the information provided, and has found it sufficient to support the amendments to the label of BioCeres G WP.
