

Evaluation Report for Category B, Subcategory 3.4 Application

Application Number: 2019-4095
Application: Changes to Product Labels-Application Method
Product: Verimark Insecticide
Registration Number: 30892
Active ingredient (a.i.): Cyantraniliprole
PMRA Document Number : 3176270

Purpose of Application

The purpose of this application was to amend the label of Verimark Insecticide to include greenhouse transplant tray drench applications against listed pests for Brassica vegetables.

Chemistry Assessment

A chemistry assessment was not required for this application.

Health Assessments

The occupational exposure and risk from the addition of the use on greenhouse brassica transplants to the Verimark Insecticide label was assessed. No risks of concern are expected from the new use, provided that workers follow the label directions and wear the personal protective equipment identified on the label.

Toxicology and dietary exposure assessments were not required for this application.

Environmental Assessment

The environmental risks associated with the use of Verimark Insecticide on greenhouse brassica transplants are acceptable when used according to the label directions.

Value Assessment

The addition of greenhouse transplant tray drench application on the label of Verimark Insecticide was supported based on extrapolation from registered uses.

Conclusion

The Pest Management Regulatory Agency has completed an assessment of the information provided, and has found it sufficient to amend the label of Verimark Insecticide to include greenhouse transplant tray drench applications against listed pests for Brassica vegetables.
