

Evaluation Report for Category B, Subcategory 3.10 Application

Application Number: 2020-3918
Application: New or Changes to Product - Tank Mixes
Product: ADAMA LADDER 240 EC
Registration Number: Reg. No. 29495
Active ingredient (a.i.): clodinafop-propargyl 240 g/L
PMRA Document Number : 3212960

Background

ADAMA LADDER 240 EC is a post-emergence herbicide that provides control of select grassy weeds in spring and durum wheat. For specific details of uses, application rates and methods, precautions, restrictions, and personal protective equipment requirements, refer to the product label.

Purpose of Application

The purpose of the subject application is to make some minor (notifiable) changes to the product label including changing the product name to LADDER, removal and/or substitution of historical tank-mix partners, update some standard label statements and other minor changes to the label. In addition, the applicant wants to update the various adjuvants used with LADDER to allow for generic use of non-ionic surfactants (NIS) and crop oil concentrates (COC), and to adjust the associated rates of adjuvant accordingly, and add Destinaire High Surfactant Oil Concentrate and Journey HSOC as new adjuvants to the label.

Chemistry Assessment

A chemistry assessment was not required as there was no change to the product formulation.

Health and Environmental Assessments

Health and environmental assessments were not required since there are no changes made to the application rate and use pattern.

Value Assessment

Value information submitted for review consisted of a rationale referring to the Value Guidelines for New Plant Protection Products and Label Amendments as well as detailing the registered use pattern for LADDER on the labels of Destinaire High Surfactant Oil Concentrate and Journey HSOC. All other minor label changes including deletion/substitution of historical tank mix partners are also supported.

Conclusion

The PMRA has conducted an assessment of the subject application and has determined that in accordance with the label, the submitted information is adequate to support the changes to the label as outlined above and other proposed changes to the label.
