

Evaluation Report for Category B, Subcategory 3.10 Application

Application Number: 2023-1008
Application: New or Changes to the Product Label – Tank Mixes
Registration Number: 26989
Active ingredient (a.i.): 11.3% w/w trinexapac-ethyl
PMRA Document Number: 3462106

Background

Primo Maxx Plant Growth Regulator (Reg. No. 26989; registrant Syngenta Canada Inc.) is a micro-emulsion concentrate plant growth regulator containing 11.3% w/w trinexapac-ethyl registered for managing growth of turfgrass on golf courses and commercial sod farms. For specific details of uses, application rates and methods, precautions, restrictions, and personal protective equipment requirements, refer to the product label.

Purpose of Application

The purpose of the subject application is to add the general tank mixing statement to the product label.

Chemistry, Health and Environmental Assessment

Chemistry, health, and environmental assessments were not required as there was no change to product chemistry, product formulation, or use pattern.

Value Assessment

A thorough review of the label determined that the addition of the general tank mixing statement is acceptable as it is consistent with the requirements in the PMRA Guidance Document – Tank Mix Labelling (March 16, 2023).

The inclusion of the general tank mixing statement on the label allows users greater flexibility to select tank mixtures of convenience in labelled crops including pest control products, supplements and or fertilizers. Flexibility in the utilization of tank mixtures may contribute to cost- and time-savings by the user.

Conclusion

The Pest Management Regulatory Agency has completed an assessment of the subject application and has found the inclusion of the general tank mixing statement to be acceptable on the product label.
