

## **Komodo Herbicide**

### **Evaluation Report for Category B Streamlined, Subcategory 3.10 Application**

**Application Number:** 2023-1833  
**Application:** Category B, Subcategory 3.10 Application (new or changes to product labels – tank mixes)  
**Product:** Komodo Herbicide  
**Registration Number:** Reg. No. 33599  
**Active ingredient (a.i.):** s-metolachlor [AME]  
**PMRA Document Number :** 3475919

#### **Purpose of Application**

The purpose of this application was to amend the registration of Komodo Herbicide per the following:

1. replace a specific list of currently labelled glyphosate and imazethapyr tank mix partners with general ‘glyphosate’ and ‘imazethapyr’ active ingredient names, respectively, for permitted products that may be tank mixed with Komodo Herbicide; and
2. add two supplement products, Ohm and Wave, as tank mix partners for post-emergent use with Komodo Herbicide on all labelled crops.

#### **Chemistry, Health and Environmental Assessments**

A chemistry assessment was not required since there was no change to product chemistry. Health and Environmental assessments were not required since the use pattern, including host crops, application rates and timings of the product, remained unchanged.

#### **Value Assessment**

Labelling the general active ingredient names for glyphosate and imazethapyr as tank mix partners for use with Komodo Herbicide, as well as the two supplement products, Ohm and Wave, allows growers to select their preferred and/or available glyphosate and imazethapyr herbicide to use with Komodo Herbicide, as well as provide greater flexibility when tank mixing with a supplement product is desired.

A rationale, in conjunction with precedent product registrations, demonstrated that acceptable value (efficacy and crop tolerance) would be expected when Komodo Herbicide is applied in tank mixture with glyphosate and imazethapyr end-use products, as well as with Ohm and Wave supplement end-use products.

#### **Conclusion**

The PMRA has completed an evaluation of the subject application and has found the information sufficient to amend the registration of Komodo Herbicide to include the

requested label amendments.
