

Section 12 Notice **Additional Information Required to Fulfill the Terms and Conditions for Conditional Registration**

Aim EC Herbicide, Registration Number 28573, Submission number: 2006-7777

During the conditional registration period which has been granted to *December 31, 2008*, the following information is to be generated and must be provided to the Pest Management Regulatory Agency by ***December 1, 2007*** and should indicate the DACO numbers specified. A partial response to the outlined Terms and Conditions will not be accepted.

Part 10	Value
DACO:	10.2.3.3/10.3.2
Title:	Efficacy and Non-Safety Adverse Effect: Small-Scale Trials
Deficiency:	FMC is requesting a tank-mix of Aim EC Herbicide with glyphosate for the pre-plant burndown application in a number of crops. The applicant did not specify on the label the list of glyphosate products they wish to request for this tank-mix. Data was provided for a few specific products, however, the number of trials and the number of products are very limited. In order to support full registration of this tank-mix, FMC would need to submit confirmatory data or a rationale to support a list of glyphosate products on the Aim label.
Requirement:	As a condition of registration, a rationale or confirmatory data is required to establish the list of glyphosate tank-mix partners which can be tank-mixed with Aim EC Herbicide in a pre-plant burndown or fallow applications. If additional data are submitted, the treatment list should include registered glyphosate products at the proposed rates of application.
