

Evaluation Report for Category B, Subcategory 4.2 Application

Application Number: 2008-0154
Application: Extension to conditional registration without consultation
Product: Deadline M-PS
Registration Number: 26650
Active ingredients (a.i.): Metaldehyde (MHY)
PMRA Document Number: 1872619

Background

Deadline M-PS (Registration Number 26650; guarantee 4.0% metaldehyde) was granted temporary registration in 2000, and was subsequently converted from temporary to conditional registration in accordance with Subsection 73(4) of the *Pest Control Products Regulations* in order to fulfill the requirements of the new *Pest Control Products Act (PCPA)* in 2007. Deadline M-PS is used as a molluscicide to control slugs and snails in a variety of use patterns.

The original evaluation of available scientific information found that, under the approved conditions of use, the product has value and does not present an unacceptable risk to human health or the environment. Although the risks and value has been found acceptable when all risk-reduction measures are followed, the applicant must submit additional scientific information as a condition of the registration.

Purpose of Application

The purpose of this application is to renew the conditional registration of the end-use product Deadline M-PS.

In support of the request to renew the conditional registration of Deadline M-PS, a rationale for renewal of the registration in the absence of required data or information was provided.

Conclusion

The PMRA has completed an assessment of available information for Deadline M-PS and has found the information sufficient to support the renewed conditional registration of Deadline M-PS until December 31, 2010. More details on the outstanding data are presented in the Section 12 Notice associated with the renewal of this conditional registration.
