

Evaluation Report for Category B, Subcategory 2.3 Application

Application Number: 2009-4573
Application: B.2.3 Identify of Formulants
Product: Converge Flexx Herbicide
Registration Number: 29071
Active ingredients (a.i.): Isoxaflutole [IXF]
PMRA Document Number : 1920123

Purpose of Application

The purpose of this application was to register an alternate formulation with additional preservatives for Converge Flexx Herbicide (PCP# 29071).

Chemistry Assessment

The chemistry requirements for Converge Flexx Herbicide have been completed.

Health Assessments

The control limits for preservatives and a solvent/defoamer were changed in both registered formulations and an alternative preservative was added to the second formulation. These changes will not effect the toxicological profile.

The request to add new formulants as preservatives to Converge Flexx Herbicide is not expected to alter the residues in food and feed crops treated with isoxaflutole. Therefore, no increase in dietary exposure to isoxaflutole is anticipated.

An occupational exposure assessment was not required for this application.

Environmental Assessment

The addition of an alternate preservative at 0.05% (w/w) is not expected to alter the environmental impact of this product. No further environmental review was required.

Value Assessment

A value assessment was not required for this application.

Conclusion

The PMRA has completed an evaluation of the subject application and has found the information sufficient to register the alternate formulation of Converge Flexx Herbicide.
