

Evaluation Report for Category B, Subcategory 2.3 Application

Application Number: 2009-1253
Application: B.2.3-Changes to EP Product Chemistry-Identity of Formulants
Product: Zodiac Powerband Plus Dual Action Flea and Tick Collar for Cats and Kittens
Registration Number: 28199
Active ingredients (a.i.): Propoxur (BAY)
(S)-Methoprene (MPR)
PMRA Document Number: 2029075

Purpose of Application

The purpose of this application was to amend the formulation.

Chemistry Assessment

Zodiac Powerband Plus Dual Action Flea and Tick Collar for Cats & Kittens is formulated as a slow releasing collar containing the active ingredients (S)-methoprene and propoxur at a nominal concentrations of 2.10% and a minimum concentration of 10.0% respectively. The formulation changes were found to be chemically equivalent to the registered product (Reg.No. 28199).

Health Assessments

The potential exposure to the active ingredients propoxur or (S)-methoprene is not expected to exceed exposure from currently registered products. The formulation changes are supported.

The amendment of the formulation is not expected to alter the toxicity profile of the product.

A food exposure assessment was not required for this application.

Environmental Assessment

An environmental assessment was not required for this application.

Value Assessment

The formulation changes are not expected to impact efficacy of the product.

Conclusion

The Pest Management Regulatory Agency has completed an assessment of the information provided and has found the information sufficient to support the amendment of the formulation.
