

Evaluation Report for Category B, Subcategory 2.5 Application

Application Number: 2016-1977
Application: Change - Formulation Type
Product: Rascendo
Registration Number: 32250
Active ingredients (a.i.): Sulfoxaflor
PMRA Document Number: 2690669

Purpose of Application

The purpose of this application was to add a storage container type to the registered end use product, Rascendo.

Chemistry Assessment

Rascendo is formulated as a suspension containing sulfoxaflor at a nominal concentration of 500 g/L. This end-use product has a density of 1.20 g/cm³ and pH of 6.8. The required chemistry data for Rascendo have been provided, reviewed and found to be acceptable. The storage stability study showed that the active ingredient content of the end use product is stable when stored in stainless steel packaging at elevated temperatures and that it is non-corrosive to the packaging material

Health, Environmental and Value Assessment

Health, environmental and value assessments not required for this application.

Conclusion

The PMRA has reviewed the information provided in support of adding a new storage container to the end use product Rascendo. Based on the results of this review, the addition of the new storage container is acceptable.
