Registration Decision Statement¹ for *Bacillus licheniformis* strain FMCH001 and *Bacillus subtilis* strain FMCH002

Health Canada's Pest Management Regulatory Agency (PMRA), under the authority of the *Pest Control Products Act* and Regulations, is granting registration for the sale and use of the technical products FMCH001 Technical (containing *Bacillus licheniformis* strain FMCH001) and FMCH002 Technical (containing *Bacillus subtilis* strain FMCH002) and the end-use product F4018-4 (containing *Bacillus licheniformis* strain FMCH001 and *Bacillus subtilis* strain FMCH002) to suppress certain fungal diseases and nematodes in specific crops.

This decision is consistent with the Proposed Registration Decision PRD2018-18, *Bacillus licheniformis* strain FMCH001, *Bacillus subtilis* strain FMCH002 and F4018-4, which contains a detailed evaluation of the information submitted in support of this registration. The evaluation found that, under the approved conditions of use, the health and environmental risks and the value of the pest control products are acceptable. Health Canada received no comments on PRD2018-18.

Other Information

The relevant test data on which the decision is based (as referenced in PRD2018-18) are available for public inspection, upon application, in the PMRA's Reading Room (located in Ottawa). For more information, please contact the PMRA's Pest Management Information Service by phone (1-800-267-6315) or by e-mail (hc.pmra.info-arla.sc@canada.ca).

Any person may file a notice of objection² regarding this registration decision within 60 days from the date of publication of this Registration Decision. For more information regarding the basis for objecting (which must be based on scientific grounds), please refer to the Pesticides section of Canada.ca (Request a Reconsideration of Decision) or contact the PMRA's Pest Management Information Service.
