## Registration Decision Statement<sup>1</sup> for fluazaindolizine

Health Canada's Pest Management Regulatory Agency (PMRA), under the authority of the [Pest Control Products Act](#), is granting registration for the sale and use of Reklemel Technical and Salibro Nematicide, containing the technical grade active ingredient fluazaindolizine to control root-knot nematodes in tuberous and corm vegetable (Crop Subgroup 1C), carrot, cucurbit vegetables (Crop Group 9) and fruiting vegetable (Crop Group 8-09).

This decision is consistent with the [Proposed Registration Decision PRD2021-03, Fluazaindolizine and Salibro Nematicide](#), which contains a detailed evaluation of the information submitted in support of this registration. The evaluation found that, under the approved conditions of use, the health and environmental risks and the value of the pest control product(s) are acceptable. See Appendix I for the comment received during the consultation process.

### Other information

The relevant test data on which the decision is based (as referenced in PRD2021-03, *Fluazaindolizine and Salibro Nematicide*) are available for public inspection, upon application, in the PMRA's Reading Room. For more information, please contact the PMRA's Pest Management Information Service by phone (1-800-267-6315) or by e-mail ([pmra.info-arla@hc-sc.gc.ca](mailto:pmra.info-arla@hc-sc.gc.ca)).

---

<sup>1</sup> "Decision statement" as required by subsection 28(5) of the *Pest Control Products Act*.

## **Appendix I    Comment**

1.     A comment from a grower in support of Health Canada's PMRA decision to register Reklemel Technical and Salibro Nematicide was received.
