

Evaluation Report for Category L, Subcategory 1.1 Application

Application Number: 2021-3250
Application: Application subject to the Protection of Proprietary Interests in Pesticide Data Policy
Product: Advantage Triallate 10% Granular Herbicide
Registration Number: 34574
Active ingredient (a.i.): Triallate
PMRA Document Number: : 3348959

Purpose of Application

The purpose of this application was to register a new herbicide based on a precedent product. Advantage Triallate 10% Granular Herbicide is for fall or spring treatment on spring and durum wheat, barley, rapeseed (including canola), flax (not including low linolenic acid varieties), yellow and brown mustard, oriental mustard (condiment and oilseed types), sugar beets and canary seed.

Chemistry Assessment

Advantage Triallate 10% Granular Herbicide is formulated as granules containing triallate at a concentration of 10%. This end-use product has a density of 0.59-0.60 g/mL and pH of 6-7. The chemistry requirements for this product have been fulfilled.

Health, Environmental and Value Assessments

Health, environmental and value assessments were not required for this application.

Conclusion

The Pest Management Regulatory Agency has completed an assessment of the information provided, and has found the information sufficient to register Advantage Triallate 10% Granular Herbicide.
