

Evaluation Report for Category B, Subcategory 2.3 Application

Application Number: 2022-4383
Application: Changes to Product Chemistry-Identity of Formulants
Product: S-Metolachlor CS 51 Plus Manufacturing Concentrate
Registration Number: 30453
Active ingredient (a.i.): s-metolachlor (and r-enantiomer)
PMRA Document Number: 3576367

Purpose of Application

The purpose of this application was to amend the registration of S-Metolachlor CS 51 Plus Manufacturing Concentrate to include a new source of a formulant.

Chemistry Assessment

S-Metolachlor CS 51 Plus Manufacturing Concentrate is formulated as a microcapsule suspension containing S-metolachlor and R-enantiomer at a concentration of 51.0 g/L. This end-use product has a density of 1.08 g/mL and pH of 7.2. The chemistry requirements for this product have been fulfilled.

Health Assessments

A health assessment was not required for this application.

Environmental Assessment

The addition of a new source of formulant for S-Metolachlor CS 51 Plus Manufacturing Concentrate is not expected to lead to any additional risks to the environment.

Value Assessment

A value assessment was not required for this application.

Conclusion

The Pest Management Regulatory Agency has completed an assessment of the information provided, and has found the information acceptable to amend the source of the formulant.
