

Evaluation Report for Category B, Subcategory 4.6 Application

Application Number: 2008-0230
Application: Fulfill conditions of registration for a product with full registration.
Product: Vancide NaMBT
Registration Number: 28655
Active ingredients (a.i.): 2-Mercaptobenzothiazole, present as sodium salt
PMRA Document Number: 1705939

Purpose of Application

The purpose of this application is to fulfill a condition of the full registration for the end-use product Vancide NaMBT (Reg. No. 28655). The condition consisted of the requirement to submit storage stability data to complete the chemistry data package.

Chemistry Assessment

The applicant has submitted the storage stability data in support of the product registration for Vancide NaMBT. The data have been found to fulfill the requirements. The chemistry is complete.

Health Assessments

There was no change in the use pattern, thus, a human health assessment was not required.

Environmental Assessment

There was no change in the use pattern, thus, an environment assessment was not required.

Value Assessment

There was no change in the use pattern, thus, a value assessment was not required.

Conclusion

The PMRA has completed an assessment of available information for Vancide NaMBT and has found the information sufficient to support the full registration.
