

## Evaluation Report for Category B, Subcategory 4.1 Application

**Application Number:** 2010-2910  
**Application:** Conversion to Full Registration without Consultation  
**Product:** Echo 720 Agricultural Fungicide  
**Registration Number:** 29355  
**Active ingredients (a.i.):** Chlorothalonil  
**PMRA Document Number English PDF:** 2006450

### Background

Echo 720 Agricultural Fungicide, a product used on terrestrial food crops and ornamental outdoors, was first granted conditional registration on November 27, 2009. The product was granted conditional registration with the requirements of providing the Agency a validated analytical method and a revised formulation process.

### Purpose of Application

The purpose of this application was to convert the registration of Echo 720 Agricultural Fungicide, Registration Number 29355, from a conditional to a full registration by addressing the outstanding chemistry requirements.

### Chemistry Assessment

Echo 720 Agricultural Fungicide is formulated as a solution containing Chlorothalonil at a nominal concentration of 720 g/L. This end-use product has a density of 1.333 g/cm<sup>3</sup> and pH of 5 -7. The chemistry requirements for Echo 720 Agricultural Fungicide are complete.

### Health, Environmental and Value Assessments

Health, Environmental and Value assessments were not required as this conversion application was limited to an assessment of the chemistry data.

### Conclusion

The PMRA has completed an evaluation of the subject application and has found the information sufficient to support the conversion of the conditional registration of Echo 720 Agricultural Fungicide to full registration status.
