

Section 12 Notice Additional Information Required to Fulfill the Terms and Conditions for Conditional Registration

Product Name: Prosper EverGol
Registration Number: 30363
Application Number: 2010-1280
PMRA # : 2133217

During the conditional registration period which has been granted to December 31, 2013, the following information is to be generated and must be provided to the Pest Management Regulatory Agency by **September 1, 2013** and should indicate the DACO numbers specified. A partial response to the outlined Terms and Conditions will not be accepted.

Part 3 Chemistry Requirements for the Registration of Manufacturing Concentrates and End-Use Products Formulated From Registered Technical Grade of Active Ingredients or Integrated System Products

DACO: 3.5.10
Title: Storage stability
Details: Results of a one-year storage stability study for Prosper EverGol.

Part 9 Environmental Toxicology

DACO: 9.2.9
Title: Field studies on non-target terrestrial invertebrates
Details: A new hive study conducted under field conditions with caged hives that examines the chronic risk to honey bees foraging on clothianidin-treated canola. The number of capped cells and larvae in the hive should be determined as well as clothianidin residues in pollen and nectar sampled from canola blooms (in both control and treatment). The study must be conducted for at least one year to account for the effects of overwintering. An acceptable draft protocol of the study design is required prior to approval of the methodology.
