

Evaluation Report for Category B, Subcategory 1.1 Application

Application Number: 2013-1806
Application: B.1.1 (Product chemistry - new source (site) same registrant)
Product: Novodor Technical Biological Insecticide
Registration Number: 26961
Active ingredients (a.i.): *Bacillus thuringiensis* ssp. *tenebrionis* strain NB-176 (BTT)
PMRA Document Number: **2318258**

Background

Novodor Technical Biological Insecticide is currently registered in Canada for use in one end-use product for controlling Colorado potato beetle on potato and tomato and elm leaf beetle on elm trees.

Purpose of Application

The purpose of this application was to add a new manufacturing site by the same registrant for the technical grade active ingredient Novodor Technical Biological Insecticide.

Chemistry Assessment

The manufacturing process for Novodor Technical Biological Insecticide at the new site has not changed from the currently registered site of manufacture. The product characterization and analysis database is largely complete. The applicant was requested to submit confirmatory microbial contamination analysis results on five batches of Novodor Biological Technical Insecticide along with the test methods and protocols.

Health, Environmental and Value Assessments

Health, environmental and value assessments were not required for this application.

Conclusion

The PMRA has completed an assessment of the available information and is able to support the addition of a new manufacturing site for the technical grade active ingredient Novodor Technical Biological Insecticide.
