

Evaluation Report for Category B, Subcategory B.3.11 Application (New or Changes to Product Label – New Pests)

Application Number: 2014-0063
Application: Category B, Subcategory B.3.11 (new or changes to product label – new pests)
Product: Converge Flexx Herbicide
Registration Number: 29071
Active ingredients (a.i.): 240 g/L isoxaflutole
PMRA Document Number : 2388160

Background

Converge Flexx Herbicide is registered at 220, 330, and 440 mL/ha for control of grasses and broadleaf weeds in field corn in eastern Canada and British Columbia and in seed corn in eastern Canada. For specific details of uses, application rates and methods, precautions, restrictions, and personal protective equipment requirements, refer to the product label.

Purpose of Application

The purpose of this application was to amend the registration of Converge Flexx Herbicide to include early season control claims for annual sowthistle and spiny annual sowthistle at 220 mL/ha and as well season long control claims for the same weeds at 330 mL/ha.

Chemistry, Health, and Environmental Assessments

Chemistry, health, and environmental assessments were not required as there was no change to product chemistry, product formulation, or use pattern.

Value Assessment

Value information in the form of trial data demonstrated that early season control of annual sowthistle and spiny annual sowthistle as well as season long control of these weeds can be expected with Converge Flexx Herbicide applied at 220 mL/ha and 330 mL/ha, respectively.

Crop tolerance data are not required for a request to add new pest claims to registered use patterns.

Conclusions

The PMRA has completed an assessment of the subject application and has found the information sufficient to amend the registration of Converge Flexx Herbicide to include early season control of annual sowthistle and spiny annual sowthistle with the 220 mL/ha rate and season long control of the same weeds with the 330 mL/ha rate.
